United States Civil War Timeline Assignment

Timelines are an effective way to map out an important historical event so you can see when and why events occurred. It is for this reason that we are going to create our own timelines for the American Civil War. We are going to do it a little differently though.

**Directions:** Using the computer resources we have in class, you are going to map out a thorough chronological timeline of the American Civil War. Instead of doing it on paper however, you are going to create it as a PowerPoint, Website or in SMART Notebook. If you have another method that you would like to use to create your timeline come and speak to me. Below are the expectations for this particular assignment.

**Expectations:**

1. The Timeline should be chronological.
2. It should be in one of the formats listed above
3. It should contain pictures of the events to make the timeline more interesting
4. There should be official dates for each of the events since that is one of the main purposes of a timeline.
5. Be creative but be accurate
6. The timeline should include information from Pages 396 (Dispute Over Slavery) to pages 456 (Restoring Southern Power)
7. Be sure to put the information in your own words – plagiarism will result in a zero
8. Once you have completed the assignment you need to post it to Moodle for marking.

The Timeline will be marked for:

- Accuracy
- Creativity
- Ease of Use (Is it easy to understand?)
- Relevance of information presented
